Primary Examiner, Art Unit 1796

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/13/08 has been entered. Claims 1-7 are pending.

The following is an examiner's statement of reasons for allowance:

Applicant's remarks regarding Kaminaka are noted. The examiner respectfully submits that the reference does teach the addition of metallic element(s) (eg. Fe, Co, Ni) as an intermetallic compound with Si (para 0040). However, the examiner notes that the instant claims require "a silicon phase as a major component, and an intermetallic compound being dispersed in the silicon phase". A careful review of Kaminaka et al 2003/0175589 discloses that the reference does not meet the claimed feature. Specifically, the reference teaches that the silicon grain phase is enveloped by the intermetallic phase (Abstract; figures; para 0033).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to

avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Kopec whose telephone number is (571) 272-1319. The examiner can normally be reached on Monday - Friday from 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on (571) 272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
